

A black and white, high-contrast photograph of a guitar's headstock and neck. The headstock is at the top, showing six tuning pegs with white knobs. The neck extends downwards, with the fretboard and strings clearly visible. The lighting is dramatic, highlighting the metallic and wood textures against a dark background.

PARKER GUITARS | A REVOLUTION IN PRECISION AND SOUND

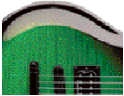

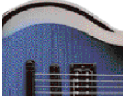

2005 NEW PRODUCTS

PARKER NEW FOR 2005

For nearly twelve years, Parker Guitars has built instruments with superior quality, beauty, and revolutionary tone. At Parker, it's not about fashion and tradition; it's about design and performance. We actually listen to what players have to say. These new models are the result of the vision of Parker's employees, and the input from many players of Parker Guitars. The result? A classic look with an incredible spectrum of jaw dropping, impassioned tones and revolutionary playability.

FLY MOJO FLAME SINGLE CUTAWAY

The Fly Mojo is the hottest selling guitar in Parker Guitar's innovative history. Our new Single Cutaway design delivers the first new USA made shape in the Parker line-up since the Parker Fly was introduced 11 years ago. Parker's engineers have developed a single cut-away design with a mahogany body and mahogany neck joined together by Parker's patented multi-finger joint that contributes to the evenness of the sound and resists the inevitable warping that sends other guitars out of tune. This patented construction results in an amazingly responsive, lively, and incredibly stable guitar with even tonal response and feel. Featuring a Seymour Duncan™ Jazz Pickup in the neck and JB in the bridge, this guitar delivers monster tone. Paired with Parker's revolutionary neck design, the Fly Mojo Single-Cutaway has unparalleled playability, and the weight? It's a Parker, so it won't leave you hunched over like some other guitars.

Available in Black Cherry Burst, Trans Blueburst, Trans Greenburst and without flamed maple in Natural, Trans Cherry, and Black.

SOUTHERN NITEFLY

The Southern NiteFly features a beautiful swamp ash body and solid maple neck matched perfectly to a vintage look. Featuring Seymour Duncan™ Pickups, the Southern NiteFly delivers all the vintage tones you'd expect when you first lay your eyes on this new classic. With custom Fishman™ Piezos built into a Fishman Powerbridge™, vintage tone can be paired with acoustic sound for unlimited tonal possibilities. Because it is an American made Parker, the Southern NiteFly has our revolutionary playability at a weight that won't break your back.

Available in Butterscotch, and Blonde.

PARKER NEW FOR 2005

Designed by Parker® engineers, the P and PM-Series™ deliver everything you'd expect from a Parker. Each guitar sold in the U.S. is set up by Parker technicians.

PM-20

ALL NEW SHAPE! BEST OF BOTH WORLD'S - TRADITION MEETS PARKER

The PM-20 delivers the first new shape in the Parker line-up since the Parker Fly was first introduced 11 years ago. Born out of innovative Parker engineering, the PM-20 is a single cutaway design with a mahogany body and mahogany set neck. With over the top crunch tones, the PM-20 also delivers a glistening clean sound. Coil-tapping is a standard feature on this guitar for single-coil tones.

Available in Quilted Bubinga or
Flame Maple Traditional Sunburst

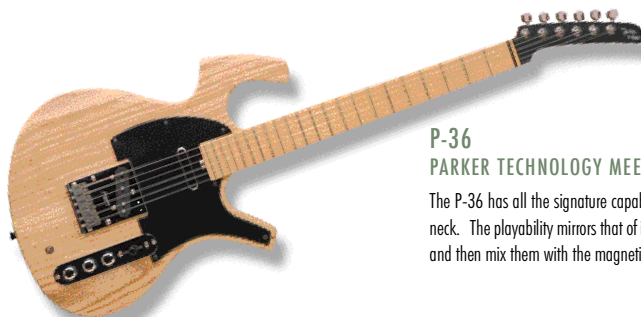

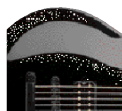

PM-10

ALL NEW SHAPE!

Just as the PM-20, the lower priced PM-10 delivers the first new shape in the Parker line-up since the Parker Fly was first introduced 11 years ago. It features a mahogany body and mahogany set neck and is equipped with custom wound Parker Stinger Humbuckers. The PM-10 delivers glistening clean tones along with massive crunch. Coil-tapping is a standard feature on this guitar for single-coil tones. The PM-10 has a traditional stop-tail bridge design.

Available in Natural or Black

P-36

PARKER TECHNOLOGY MEETS VINTAGE LOOK AND SOUND

The P-36 has all the signature capabilities of the high-end Parker Fly in a beautiful ash body with maple bolt-on neck. The playability mirrors that of its vintage predecessor. Count on the piezos for a very realistic acoustic sound, and then mix them with the magnetics for a hybrid that introduces a whole new dimension to music.

Available in Natural or Blonde

P-42

With a solid mahogany body and maple bolt-on neck, the P-42 screams with lightning fast response and a sweet, full mid-range and singing upper register. Custom wound Parker Stinger Pickups deliver plenty of sustain and grind while the coil tap gives you single-coil tones.

Available in Metallic Gray or Metallic Black
